"I acknowledge that allocating the same level of resources to CT and CVE post-COVID-19 might be challenging, but I hope that policymakers will recognize that the prevention of terrorism remains crucially important" (Gilles de Kerchove, coordinatore anti-terrorismo UE, 2020)

"the real way to prevent terrorism is to get it right at the start of the radicalisation cycle" (Neil Basu)

"Preventing and Countering Violent Extremism" (P/CVE) is a global State-led approach that is part of a broader counter-terrorism agenda. This "whole-of-society" approach aims, through a wide range of mostly non-coercive activities, to address the root causes that may ultimately result in "violent extremism" and acts of "terrorism"
